## **Explorer Instructor's Outline**

The following outline is recommended in order to complete the work for this class in a time frame of August (typically when the Pathfinder year begins) to March 1<sup>st</sup>. By following this format, an instructor should be able to complete the work without rushing to fit in those last minute items. The schedule can be adapted to your needs, keeping the goal in mind of having a steady, structured plan of completion. This will help avoid those “*Last Minute*” problems. The instruction will not be as effective if you are in a rush to get it done.

## Instructor's Tips:

Do not use phrases like "Home Work" and "Class Work". Say "Progressive Ranks", or "We will be working on (blank) Honor".  
The thought of having to do more home work in addition to what they have to do for school will do little for the enthusiasm of your students.

Begin long activities as early as possible in the year.

Provide progress reports to the coordinator, and advise the coordinator of problems.

Seek guidance and assistance from other instructors and leaders.

Pay attention to group activities. They may fulfill some of the class requirements.

Complete as many of the honors started by your group during this class as you can. Many areas build on honors and future class ranks.

**ALWAYS BE POSITIVE!**
