

RENT-A-YOUTH

Fundraising Project

General Information

RENT-A-YOUTH

This is a great way to help out the people in your church and community, and receive some cash flow as well. You should have no problem finding people who need work done around their homes or businesses, (painting, mowing or weeding, watering, cleaning garage, etc.) and would be willing to donate funds to your group for doing those projects. You can pass out flyers at your church and in your community with information about the Rent-A-Youth program. Give a general description of the types of things your group members would be able to help with, an explanation of what your group is about and what the funds will be used for, and contact information of the person coordinating the projects. The client can contact the project coordinator and explain their needs, and then schedule a time to do the work. Schedule at least two youth, and one or two adults for each project. Never leave the youth alone at a client's home. Adult supervision is a must! Make sure you have all the proper equipment and safety gear for the project you are doing. You want to keep your youth, and yourself, safe! Donations should be collected as soon as the project is completed! You can determine if you want to set a price per/hour or per/project, or just take whatever donation the client gives. Keep in mind some people may not be able to afford much, or even anything at all. Either way, it is still a great community service activity. Speak to the youth about proper conduct and courtesy before you start the project. This is a great opportunity to teach your group members' good work ethics and how to interact with customers and each other, in a work environment. Train your group members on how to properly, and safely execute the tasks they have been assigned to do. Make it fun, and make it as convenient as possible for the client.

Items Needed:

Contact Person (Project Coordinator) to schedule projects and assign duties.

Youth and Adult Volunteers to do the various projects.

Transportation to get the volunteers to and from the project sites.

Water, Other Drinks, Cups, Snacks for the volunteers.

Appropriate Task and Safety Equipment (based on specific projects).

Donation Receipt book (clients may want a receipt for tax purposes).

Moneybox or Moneybag
